**S**

## **STRENGTHS**

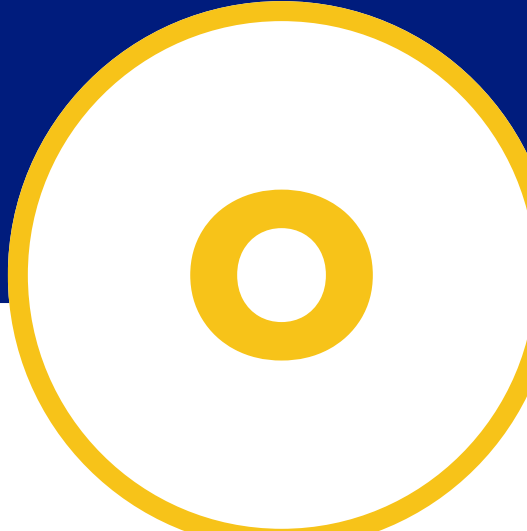

- Local electronic library, online library
- Round-the-clock remote access to information resources
- Electronic catalog with bar coding of objects of the book fund
- Access to license databases
- Book exchange with libraries

**W**

## **WEAKNESSES**

- Inadequacy of arrangement to the needs of accommodation and storage of existing library funds
- Untimely updating of information on the website
- Low level of filling funds with teachers' works
- Insufficient level of information and network competences of new employees

**O**

## **OPPORTUNITIES**

- Development of information technologies, increase in the number of services related to digital content
- Attracting funds from grant programs
- Exhibition work
- Systematization of library funds according to the UDC
- Creation of stock collections in the reading room
- Conducting activities on the basics of information culture
- Development of partnership by professional communities

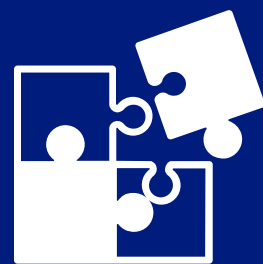

**T**

## **THREATS**

- The negative impact of martial law and the pandemic
- Low involvement of the Library in the educational and cultural processes of the University
- Inadequacy of staff and structure to modern needs of library development
