

INFORMATION LETTER

Dear students and young scientists!

We invite you to participate in the **International Conference "Medicine of Five Continents – Global Health Issues,"** organized by the International European University (IEU), Kyiv, Ukraine.

Conference dates: December 6–7, 2024

Location: Salini Resort (Malta)

Conference language: English

Conference objectives:

- Exchange of experiences and finding solutions to current medical and social issues.
- Development of international cooperation.
- Discussion of healthcare system preparedness for challenges such as epidemics, natural disasters, emergencies, armed conflicts, etc.
- Professional development of future doctors.

Conference topics:

- Global health and medical issues (infectious diseases, immunoprophylaxis, nutrition issues, armed conflicts, emergency care in critical conditions, climate change, etc.).
- Artificial intelligence in medicine.
- Prevalence of infectious and non-infectious diseases depending on the geographic region.

Draft program: [here](#)

Participation formats:

1. Online participation (free, registration is required).
2. Offline participation:
 - Opportunity to receive a Travel Grant (conditions described below).
 - The Travel Grant covers accommodation at the university campus in Malta and meals during the conference.
 - The organizing committee compensates travel expenses up to 200 euros for participants from Ukraine and 150 euros for participants from other countries.

Conditions for receiving the Travel Grant:

- Medical students (1st-6th year), interns, or resident doctors.
- Submission of an abstract on one of the following topics:
 - Morphology and physiology in modern medicine.
 - Infectious and non-infectious diseases depending on geographic region.
 - Artificial intelligence in medicine.
 - Healthcare system challenges (pandemics, natural disasters, terrorist acts, etc.).
 - Immunoprophylaxis of infectious diseases.
 - Nutrition issues and climate change.
 - Antibiotic resistance.
 - Genetics in modern medicine and the prevalence of genetic diseases depending on geographic region.
 - Ethical issues in medicine.
- Abstract length – up to 2000 characters (title, purpose, results, conclusions).
- English language proficiency – Upper Intermediate+.
- A valid EU visa or passport that allows visa-free entry to Malta.
- Abstract submission deadline – October 25, 2024.

In the case of receiving the grant, the participant is obliged to prepare an oral presentation lasting up to 15 minutes. Responses regarding grant acceptance will be sent by October 31, 2024.

Speakers: Renowned scientists; lecturers from the International European University; Students and young doctors/scientists who will receive the travel grant on a competitive basis.

Awards and certificates:

All participants will receive certificates after successfully passing the post-test. Presenters will receive speaker diplomas.
